Applicant : Christine Brauer
Application No. : 09/960,269
Filed : September 20, 2001
For : USE OF PRE-SORTED PLASTIC MATERIAL WASTES AND
PROCESS FOR PRODUCING A GRANULAR MATERIAL AS A
FILTER FOR THE PURIFICATION OF SEWAGE

Art Unit : 1732
Docket No. : 170135.401
Date : September 24, 2002

Filing Receipt Corrections
Office of Initial Patent Examination
Commissioner for Patents
Washington, DC 20231

REQUEST FOR CORRECTED FILING RECEIPT

Commissioner for Patents:

Attached is a copy of the official Corrected Filing Receipt received from the PTO in the above-identified application, for which issuance of a corrected Filing Receipt is respectfully requested.

There is an error with respect to the following data, which is incorrectly entered. There is an error in the title, which should read: USE OF PRE-SORTED PLASTIC MATERIAL WASTES AND PROCESS FOR PRODUCING A GRANULAR MATERIAL AS A FILTER FOR THE PURIFICATION OF SEWAGE. The words "wastes" and "producing" were misspelled on the filing receipt.

The correction to be made has been marked in red on the enclosed copy of the Filing Receipt.

Also enclosed is a copy of page one of the English translation of the application which was filed with our response to Notice to File Missing Parts on December 26, 2001 showing the correct title of the application.

Respectfully submitted,
Christine Brauer
Seed Intellectual Property Law Group PLLC

Date Mailed: 08/30/2002

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Applicant(s)

Christine Brauer, Hamburg, GERMANY;

Domestic Priority data as claimed by applicant**Foreign Applications****If Required, Foreign Filing License Granted 10/22/2001****Projected Publication Date: 03/20/2003****Non-Publication Request: No****RECEIVED**

SEP 09 2002

**** SMALL ENTITY ****

SEED INTELLECTUAL PROPERTY
LAW GROUP PLLC**Title**

Use of pre-sorted plastic material wastes and process for producing a granular material as a filter for the purification of sewage

Preliminary Class

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

5 Use of pre-sorted plastic material wastes and process for producing a granular material as a filter for the purification of sewage

10 The invention concerns the ecologically meaningful use of pre-sorted plastic material wastes and a process for producing a granular material as a filter for the purification of sewage and waste water.

The use of plastic material wastes, in particular those which have been pre-sorted and/or purified, is known in the state of the art, as well as various processes for producing a granular material made up of a single kind of material, as a filter for the purification of sewage and waste water.

15 As is known, large amounts of plastic material wastes, in particular also domestic packaging, are recycled in terms of the material involved. The Deutsche Gesellschaft für Kunststoffrecycling GmbH, referred to for the sake of brevity as DKR, implemented a procedure for suitably splitting up those various plastic materials. There is a foil or sheet fraction, a plastic
20 bottle fraction, an EPS fraction, a cup fraction and a mixed plastic material fraction. Residues are put to use by thermal processes, for example by the production of energy by incineration. Thus DSD (Duales System Deutschland) already represented in 1997 a utilisation quota of 86%, as is referred to in the newspaper 'DIE WELT' of 5th February 1999. However the
25 DSD-DKR system also presents itself as being more and more market and economy oriented. If at the present time there are still loss-making quotas of DM 500.00/mt for the processors which are certified in the DSD-sector, that will in fact change in the next few years.

30 Naturally large corporate groups with enormous levels of expenditure are in a position to satisfy the qualitative wishes of some limited customers, inter alia also abroad. Nonetheless the market for the DSD material still remains limited. The sole reason are for example problems with dealing
